

INPUT[®]

I am an **inquisitive collector** of items, experiences, and knowledge, with a curiosity and drive to compile as much interesting and valuable information as possible.

Academic Life

- Save notes and information from previous classes to reference when needed.
- When researching for projects, allow extra time to go off on curious tangents.
- Choose classes that focus on variety or on possible new interests.

Decision Making

- Gather research from many sources and organize it to make informed decisions.
- Choose paths that allow for many opportunities to divert into interesting territory.
- Discuss choices with the people in your life to gather their input.

Relationship Building

- Use your wealth of knowledge, knowing a little about everything, to relate to everyone you meet.
- Recall your experiences to help others overcome obstacles or devise strategies.
- Find a travel buddy, research locations, and go on an adventure together.

Extracurriculars

- Schedule time to surf the internet and satisfy your curiosities.
- Read whenever possible, as much as possible, and perhaps, join a book club.
- Start collecting something that you find thrilling, like coins, stamps, magnets, dolls, etc.

Career Goals

- Gather as much information as you can about the careers that interest you, and discuss with a career advisor.
- Research-based work will give you an endless rabbit hole to explore.
- Careers on the cutting edge, like technology or news, will thrill you.

Leadership Tips

- You are a credible source of a variety of information and can use this to lead others in the right directions.
- Teaching K-12 children will allow you to dip your brush into many different subjects.
- Exploring a career as a tour guide, a teacher, or researcher will keep you learning.
