

## LEARNER<sup>®</sup>

I am energized by gaining and processing **new and useful information**, and I find the process of learning a thrilling development towards my personal growth.

### Academic Life

- Keep notes and journals that document what you learn in classes and activities.
- Read outside material related to your courses that will expand your insight.
- Surround yourself with professors and classmates who share your thirst for knowledge.

### Career Goals

- Choose jobs that provide variety and assorted learning experiences.
- Research and study the career paths that interest you.
- Working in education will keep your learner fire burning.

### Decision Making

- Consider every experience a learning experience and recall past obstacles to find direction.
- Consult with people who may be able to offer you more information.
- Research all available paths before choosing a direction.

### Leadership Tips

- Learn by teaching - look for opportunities to lead group learning.
- Your willingness to adapt to what is new will allow you to guide others towards the horizon.
- Encourage others to explore learning opportunities and offer to lend your expertise.

### Relationship Building

- Make friends who speak a different language, and ask them to help you to learn it.
- Attend local workshops that will allow you to meet new people who also love to learn.
- Inspire the people in your life to come on learning adventures with you.

### Extracurriculars

- Take classes in a multitude of subjects and activities to stay entertained.
- Watch educational television that informs you on things like history, science, and technology.
- Teach yourself new languages, cooking techniques, or instruments.
